# GRAPHIC & PRINT GUIDELINES

## PRODUCT TEMPLATES

Templates ensure artwork is printed correctly. Always use the most recent templates, which can be found in the "Graphic Templates" tab on each product page of our website.

- Do not leave template lines in artwork
- Templates are available for custom products/orders upon request

**Save TIME, MONEY and HASSLE with templates specifically created for each product.**

Each template includes file setup specs for sizing your artwork, including the bleed, finished and safe areas.

### VECTOR ART

(Recommended for all products)

- Can be scaled to any size while maintaining quality
- Known as line art
- Vector artwork is preferred (unless printing photos)

.eps, .ai, .pdf

### RASTER ART

- Known as bitmap art
- Composed of pixels (or tiny squares) grouped together to make one complete image
- When scaled larger, the image will look pixelated (or jagged)
- Submit art at 200 DPI (dots per inch)

.tif, .psd, .eps, .pdf, .jpg

### OUTLINED FONTS

(Required for all products)

Font selection can vary from computer to computer, which can cause a desired font to be replaced with a generic one. To preserve your fonts, always outline, embed, or convert them to curves before submitting artwork.

### EMBEDDED IMAGES

(Required for all products)

Most programs allow the user to add an image to a file by linking or embedding. Embedded images are stored within the document itself, while linked files are not. Because of this, linked files can suddenly vanish when opened from a different computer. Embed all images to avoid losing them when files are submitted.

200 DPI

**High resolution images include:**  
Unedited, original raw digital photos and stock photos

10 DPI

**Low resolution images are:**  
Photos taken from the internet, scanned images, photos taken on a cell phone, screenshots, etc.

### UNACCEPTABLE FILE FORMATS:

Quark, Corel Draw, Word, PowerPoint, Excel, Publisher, Pagemaker, low-resolution scanned images. (InDesign files, unless exported to .eps or .pdf format, will incur additional charges or be rejected.)

# GRAPHIC & PRINT GUIDELINES

## FILE PREPARATION

### PRODUCT TEMPLATES

Graphic templates can be found in the "Graphic Templates" tab on each product page of our website. Graphic dimensions are subject to change without notice.

### REQUIREMENTS

Documents must be print ready and submitted at 100% final size, with no additional manipulation necessary; additional charges may apply if these terms are not met. Before submitting artwork, convert all text to outlines, paths or curves to ensure exact duplication of type style. Alterations to submitted artwork will result in a necessary proof approval, which may delay production time. We reserve the right to delay or reject any order based on the quality of the artwork received.

We also reserve the right to make slight alterations to your file to adapt to our printing process. Some thin lines or small shapes may not reproduce at the size or thickness submitted. Multicolor close-registration prints are not available on all products.

Please see page 192 for specific information relating to each print method.

## ARTWORK SUBMISSION & PROOFING

### UPLOADING ARTWORK

For the fastest and most efficient artwork processing, please submit art via our website.

You must have an account and be logged in. Our factory will not be held responsible for any server malfunction that affects the receipt of your files.

### ELECTRONIC PROOFS

Proofs are provided electronically in PDF format. These depict a low-resolution representation of the final product and should not be used for final color output or image resolution. Additional proofs may incur a proof revision charge of \$10.00(G) each, plus additional design time. Proof approvals must be submitted via our online proofing system before production will begin.

**All proof approvals received after noon Central will be counted as received on the next business day. Production time begins after the final proof approval is received.**

## GRAPHIC DETAILS

### ERRORS

We will not be held responsible for errors resulting from copy that was received or approved incorrectly.

### TYPESETTING

Our normal art setup fee includes up to three lines of copy. If a specific font is required, the name of that font must be noted on your purchase order. If we do not have the desired font, the type will be re-set using a standard font or one that matches the desired font as closely as possible.

### CHANGE OF COPY CHARGE

Whether for a new or repeat order, any request for an addition, deletion or change to the copy in a vector artwork file will result in an **\$10.00(G) Change of Copy Charge**.

### REPEAT ORDERS

There are no setup fees for exact repeat orders placed within two years of original order. Any artwork older than two years must be resubmitted. Proof approvals are required on all repeat orders.

**\*\*\*ARTWORK THAT HAS BEEN ALTERED IN ANY WAY CANNOT BE CONSIDERED FOR A REPEAT ORDER\*\*\***

## COLOR

### COLOR POLICY

All of our products are printed CMYK (process color). If your artwork requires a specific color, please request a test grid (see below).

**WE CANNOT GUARANTEE COLOR MATCHING.**

### TEST GRID\*

If you are concerned about a specific color, we suggest ordering a test grid. Test grids are printed samples of your requested PMS (spot) color and its surrounding color family (e.g. reds, blues, etc.) These test grids contain the CMYK (process color) equivalent of PMS colors. The vast majority of PMS colors cannot be accurately represented in a CMYK printing process. Please state on your purchase order that you are requesting a test grid and the specific PMS color(s) you are trying to achieve.

### MATCH PRINT\*

A match print is a 1/4 scale print of an entire art file. This is the most accurate way to represent an entire printed piece, since it will mimic the color and appearance of the piece as a whole, excluding any finishing. Please state on your purchase order that you are requesting a match print so it will be recorded on your order.

### TEST STRIPS\*

For the most detailed representation of full-size print quality and image resolution, we recommend requesting a test strip. An 8" x 20" section of the art is printed at 100%. Please state on your purchase order that you are requesting a test strip so it will be recorded on your order.

*\*The first test grid, match print and test strip available at no charge (customer to pay freight). Each additional test grid, match print or test strip is \$20.00(G) plus freight, expedited charges apply.*

### COLOR ACCURACY

Our customers deserve the best quality prints and most consistent, accurate color possible. As a G7 Master Qualified printer, we provide industry-leading color accuracy throughout our printing and production processes.
